Toshiba LCD Projector TLP-B2

Attractive Compact Design

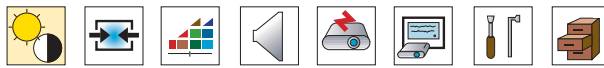

This amazingly compact projector has the profile of letter-size paper and weighs only 5.8 pounds. That means you can carry it with one hand and take it anywhere you go.

Bright Output of 1250 ANSI Lumens

This projector's bright 1250 ANSI lumens output lets you project bright, clear images even in well-lit rooms.

Easy-to-Understand Icons

You can make all the adjustments just by pressing the buttons on the simple icon-based menu. That's why this projector is so easy for anyone to use.

Automatic Digital Keystone Correction

The projector uses an angle sensor to automatically correct the shape of the image. So even when the projector is tilted, it still projects a perfectly rectangular image.

Specifications

Model		TLP-B2
Device	Size	0.9 inch pSi LCDx3 4:3 aspect ratio
	Operation No. of Pixels	TFT Active Matrix 1024 x 768 x 3
