ImagePro LCD Projector Features

TFT Technology gives the Model 7200A rich, superior images.

"Plug and Play" in less than 2 minutes.

SVGA (800x600) resolution allows reproduction of data with razor sharp accuracy and video images with lifelike color and detail. Also **compressed XGA (1024x768)** resolution.

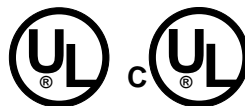

XGA (1024x768) resolution is displayed by a new compression system which provides ultra clear images. The full range of resolutions from VGA to XGA can be projected.

Adaptability--manual keystone correction, built in stereo speakers, and full wireless remote control allow this projector to be used anywhere .
